## Al-Ameen College – Celebrating Outstanding 2025 ATAR Results

Dear Board Chair and Members, Parents, Staff, Students,

I am delighted to share and formally celebrate the outstanding academic achievements of our Year 12 cohort in the 2025 ATAR examinations. These results represent an exceptional outcome for Al-Ameen College and reflect the collective commitment of our students, families, and staff to academic excellence, discipline, and high expectations.

### Exceptional ATAR Performance Across the Cohort

This year's results are particularly noteworthy not only for individual excellence, but for the **strength and depth of achievement across the cohort**:

- **Over 25% of students achieved an ATAR above 90**
- **More than 60% of students achieved an ATAR above 80**
- **Our 2025 Year 12 Al Ameen College Graduates have surpassed all before them, producing an AVERAGE ATAR of 87.5% and with the University of Western Australia Bonus is realised at an exceptional 92.5%**

These figures place Al-Ameen College in a highly competitive position and demonstrate a strong culture of academic aspiration and sustained effort. Achieving such outcomes across a broad cohort is a significant accomplishment and reflects consistent teaching quality, student commitment, and effective academic support structures.

### Top ATAR Achievers – 2025

I am proud to recognise our highest-performing students:

- **DUX of Al-Ameen College: Ahmad Hassan Subhan – ATAR 99.60**
- **Second Highest ATAR: Masirul Haque Chowdhury – ATAR 98.80**
- **Third Highest ATAR: Khadija Awan – ATAR 97.2**
- **Fourth Highest ATAR: Ayesha Omran – ATAR 96.50**

These students exemplify academic excellence, resilience, and disciplined study habits, and they serve as outstanding role models for our younger cohorts.

### Outstanding Subject Achievement

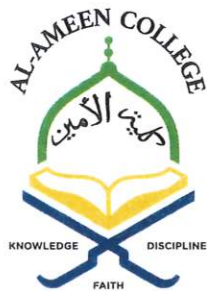

A special acknowledgement must be given to:

- **Shanzay Waseem**, who achieved a **perfect score of 100 in Health Studies**, earning a **Subject Exhibition Award**.

This is an exceptional state-level achievement and a testament to both student dedication and the high-quality teaching and mentoring delivered at Al-Ameen College.

### Academic Rigour and the Impact of Physics

This year's results once again highlight a strong correlation between **Physics enrolment and high ATAR performance**. Students undertaking Physics recorded an **average ATAR exceeding 95**, significantly above the State Average. This reinforces the value of rigorous academic pathways and reflects the strong work ethic, analytical thinking, and discipline fostered through the study of advanced science subjects.

## Celebrating Our Students

Upon our return in the new academic year, I will be **personally leading a formal celebration of our high-achieving students and their families**, recognising not only outstanding ATAR results but also the dedication, perseverance, and commitment demonstrated throughout their senior years.

This will be an important opportunity to acknowledge excellence, celebrate effort, and reinforce our shared commitment to academic aspiration and student success.

## In Closing

I extend my sincere congratulations to the Class of 2025. Your achievements are a credit to yourselves, your families, and the entire Al-Ameen College community. I also thank our teaching staff and leadership team for their professionalism, expertise, and tireless commitment to student success.

We look forward with confidence and pride as our graduates take their next steps beyond Al-Ameen College.

Warm regards,

**Dr Peter Thatcher**  
College Principal
