FUNtastic Camp

الكلية الإسلامية في لنفورد

2019

HS Camp

This year's camp was exhilarating and full of entertainment.

Flat water rafting is just one of several exciting activities which 47 girls and 54 boys took part during the 3-days/2-nights Camp FUNtastic 8 at Busselton Baptist Camp from 16-20 September 2019. They also took part in mountain biking, team building, values, beach walk, raft building, enviro art, scar stories, honouring and water team challenges.

At the end of the day, everyone had reflection time where they wrote in their journals about their learning journey and shared with one another important lessons derived from their experiences.

The objectives of the camp were to create a fun, challenging space for our students to forge stronger connections with themselves and each other, to instil self-discipline and self-reliance, strengthen our sense of unity and foster leadership qualities amongst the seniors by being positive role models to the juniors. Potential student leaders are identified and selected to provide service to the school during school events.

In addition to the High School camp, for the first time, 104 students attended the inaugural Year 5/6 overnight camp at Bickley Adventure Camp and they thoroughly enjoyed themselves and learned new skills and experiences, being the first time away from their family and out of their comfort zone. We hope that next year's response will be as good or even better.

We hope that the campers enjoyed themselves and at the same time, learnt priceless life skills which they could apply in their everyday school, family and community life.
